

CERTAIN-T™ Methodology

DIGITAL TRANSFORMATION, ACCELERATED

Government agencies face demands for modernization among the rapidly evolving digital era. COREONYX offers practical guidance to bridge the gap between traditional tactics and contemporary demands. Where the USDS Playbook lacks, this 4-prong approach provides:

Actionable Order

Practical Execution

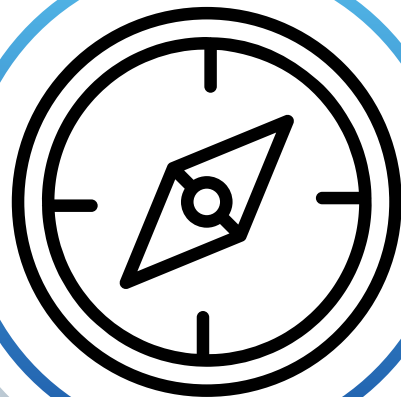

Resource Availability

1 Guided Exploration

The Discovery phase includes:

- Tailored assessment of your agency's mission, culture, and user experience.
- Data-driven insights to pinpoint areas for strategic optimization.
- Digital transformation tools needed to make your agency's vision a reality.

2 Effective Solutions

The Strategy phase includes:

- Collaborative planning with an experienced team.
- Open-source solutions for a future-proof approach.
- Expert recommendations that align with budget and regulations.

3 Seamless Implementation

The Execution phase includes:

- Assessments and stakeholder collaboration to align with agency goals.
- Agile development and continuous integration for quality products.
- Merging industry best practices with policy and regulatory compliance assurance.

4 Continuous Improvement

The Iteration phase includes:

- Rapid release of new features without compromising quality.
- Performance metrics for data-driven decisions.
- Deployment sequencing for long-term success with strategic roadmaps.

Ready to revolutionize your digital services?

We'll guide your path to innovation and prepare for the evolving needs and expectations of end users. Shape the digital future, today with CERTAIN-T™: digital transformation – accelerated.
