

COREONYX NASA SEWP VI Ordering Guide

Category C - Mission-Based ITC/AV Service Solutions | Contract 80TECH26D1040

Service-Disabled Veteran-Owned Small Business (SDVOSB)

About NASA SEWP

The NASA SEWP Program provides Information Technology, Communication and Audio Visual (ITC/AV) professional services and product solutions for Federal Agencies and their approved contractors through a suite of contracts covering a diversity of business sizes and offerings. SEWP provides acquisition support, reporting, procurement tools, and customer service for participating agencies.

About COREONYX and NASA SEWP VI

COREONYX Government Solutions provides mission-based ITC/AV services through NASA SEWP VI Category C. NASA SEWP VI is a multiple-award Government-Wide Acquisition Contract (GWAC) available to federal agencies and their approved support service contractors.

Contract Information

Contract Holder	COREONYX Government Solutions, LLC
SEWP VI Contract Number	80TECH26D1040
Category	C - Mission-Based ITC/AV Service Solutions
Contract Type	NASA SEWP VI GWAC
Period of Performance	November 1, 2026 - October 31, 2036
SEWP Surcharge	0.34%

Category C Mission Service Areas

COREONYX's Category C contract supports mission-based ITC/AV service requirements within the awarded contract scope. The mission groupings below are intended to make the scope easier for customers to navigate; the formal awarded service descriptions are retained for acquisition reference.

Mission Area	Related Service Capabilities
Digital Modernization and Software Engineering	Software Publishers; Custom Computer Programming Services; Computer Systems Design Services; Other Computer Related Services
Cloud, Infrastructure and Data Services	Computing Infrastructure Providers, Data Processing, Web Hosting, and Related Services; Computer Facilities Management Services
Engineering, Security and Specialized Technical Services	Engineering Services; Security Systems Services; Graphic Design Services; Other Specialized Design Services; All Other Professional, Scientific, and Technical Services
Mission Consulting and Research	Other Management Consulting Services; Administrative Management and General Management Consulting Services; Other Scientific and Technical Consulting Services; Research and Development - Physical, Engineering, and Life Sciences
Training and Communications Support	Computer Training; Telecommunications Resellers

Each requirement must remain within the awarded contract scope and the services available on COREONYX's SEWP contract.

How to Request a Quote

To discuss a requirement or request assistance preparing a quote request, contact our SEWP Program Manager or Deputy Program Manager listed in this guide. Include your agency, statement of work or performance work statement, anticipated schedule, place of performance, and applicable security or accessibility requirements. Submit competitive quote requests through NASA's SEWP Quote Request Tool (QRT), following applicable fair-opportunity procedures.

Specify required outcomes, deliverables, acceptance criteria, anticipated period of performance, preferred order type, and response deadline. Discuss implementation, support, and any applicable warranty requirements before award. Quoted services must be available under COREONYX's SEWP contract; quotes will identify their validity period.

Fair Opportunity

Orders are subject to FAR 16.505(b) and the applicable SEWP VI contract provisions. Eligible contract holders within the selected category or authorized socioeconomic grouping must be provided fair opportunity unless an applicable exception is documented. NASA's QRT supports the required fair-opportunity groupings. The ordering agency is responsible for its evaluation, selection, and award documentation.

How to Place an Order

1. **Define the requirement.** Prepare the statement of work or performance work statement, funding information, schedule, and agency purchase request. For a scope review, send the requirement to help@sewp.nasa.gov.

2. **Request and evaluate quotes.** Use NASA's QRT and follow agency acquisition procedures and applicable fair-opportunity requirements. The ordering contracting officer determines the order NAICS code, contract type, price reasonableness, and award decision.
3. **Issue the order.** The agency's authorized contracting officer issues the funded order against COREONYX contract 80TECH26D1040. NASA's SEWP Program Management Office does not issue orders for other agencies.
4. **Route the order through NASA SEWP.** Submit the signed order and supporting quote using NASA's current order-submission instructions. The SEWP Program Management Office reviews, processes, tracks, and forwards the order to the contract holder. Route subsequent modifications through NASA SEWP as well.

Current ordering instructions: [NASA SEWP VI Ordering Information](#)

For submission assistance, contact help@sewp.nasa.gov or 301-286-1478.

Order Information Checklist

- Order number, issue date, and signed date; COREONYX contract number 80TECH26D1040; applicable NAICS code and order contract type.
- COREONYX quote; contract-holder mailing address and phone number; issuing agency and mailing address; ship-to or service-performance location and address, as applicable.
- Line items and pricing; total order value; contracting officer's signature and phone number.

Implementation and Service Support

For service implementation, technical or software support, or an order issue, contact our SEWP Program Manager or Deputy Program Manager. Include the order number, affected service or deliverable, description of the issue, and your contact information. Implementation, acceptance, support coverage, and any applicable basic or extended warranty terms are defined in the awarded order. Additional support or warranty coverage must be identified in the quote and order.

Use the order's statement of work, service levels, deliverables, and acceptance criteria to identify the applicable support requirements. For software or other components included in the service solution, any manufacturer or publisher warranty and maintenance coverage applies as specified in the quote and order. Confirm exclusions, coverage periods, and escalation arrangements before award.

Troubleshooting an Order

- Contact Shenee Akinmolayan at Shenee.Akinmolayan@coreonyx.com or 571-446-0483. If unavailable, contact Melisa Joyce at Melisa.Joyce@coreonyx.com or 813-957-1030.
- Provide the order and quote numbers, affected service or deliverable, issue details, business impact, and the agency point of contact. Share supporting information through an agency-approved channel.
- For NASA order-processing or routing questions, contact help@sewp.nasa.gov or 301-286-1478. Any change to scope, price, schedule, or other order terms must be authorized by the ordering contracting officer and routed through NASA SEWP.
